

How to Configure the BeeeP Menu

How to configure the BeeeP menu

The following example uses a banner graphic called `BeeePgeneral.jpg`. This is not part of Joomla and you must add it yourself. I'll put this jpg in a zip and make it downloadable from my blog.

Make a section called `BeeeP`.

Make a category called `BeeePGeneral`. Assign it to the section `BeeeP`.

How to Configure the BeeeP Menu

Write an article called BeeeP Introduction.

Here is the html for the article. To get that copyright symbol, I had to edit the html. And I copied the copyright symbol right into the html page. You also must add the BeeeP banner (the file

How to Configure the BeeeP Menu

BeeePgeneral.jpg) to the Joomla images directory.

```
<div style="text-align: center">
  
</div><br />
<div style="text-align: center">©2008 IEEE Oregon Section</div>
<div>
  Disclaimer: The opinions expressed, as well as the technical accuracy of authors published in this
  newsletter, are the responsibility of the individual authors. Therefore, no endorsement by the IEEE,
  its officers, or its members is made or implied.
</div>
<p>General Information about the BeeeP goes here.</p>
<p>The current issue is May 2008. Click on May2008 in the left navigation panel to get to the
  articles.</p>
```

Create a Main Menu item called BeeeP. Choose BeeeP/BeeePgeneral (Section/Category) as the Category.

Then, go to the Home page and refresh.

Make a category for each BeeeP month you want to display. I made categories for BeeePJun08 and BeeePJu108. Assign each category to the Section BeeeP.

Make Main Menu items for each category. Choose a Category List Layout, rather than the typical Category Blog Layout. Choose to display each in the BeeeP menu (make BeeeP the parent). Under Parameters-System, choose No for Show Page Title.

When you write an article, assign it to the section BeeeP and the Category that identifies the month the article appears in. As examples, I just picked some two of the Joomla articles from the sample data and

How to Configure the BeeeP Menu

assigned them to BeeeP/BeeePJun08 and BeeeP/BeeePJu108.

Here's how the site looks now.

Click on BeeeP in the Main Menu and notice that the submenus appear. Notice also that the BeeeP Introduction article appears.

How to Configure the BeeeP Menu

Click on one of the monthly BeeeP submenus. Here I choose BeeePJu108. Notice that the Category List Layout does not actually display the article. Rather it displays a Table of Contents.

Click on one of the articles to display it.
